## Serious Trifles

**Constipation.** You thought at first it did not amount to much. You regarded it as just a "trifle"—paid no attention to it. But one day you woke up to the fact that the "trifle" had become "serious."

Perhaps you had a nervous breakdown, or narrowly escaped one. Or the doctors found High Blood Pressure, maybe Hardening of the Arteries (Arterio Sclerosis). Quite likely, Rheumatic attacks. Whatever it was, more than likely, the one cause back of it all was Constipation.

Constipation is a Serious Trifle. Because it is so easy to neglect it, and the consequences are so serious.

Devonia, the American Medicinal Mineral Water, is "first aid" to bringing the bowels back to natural action.

It is not habit-forming. The bowels do not come to depend upon it, as they do with pills, castor oil, oils, and the like. It loosens the retained food waste which has poisoned your system and removes it gently but thoroughly from the bowels. It gives a healthful stimulus to affected organs and assists them to perform their natural functions. In these ways, it restores health and prolongs life.

Devonia comes to you just as Mother Nature made it in her wonderful laboratory a thousand feet under ground. It is not condensed, added to, or changed in any way. So potent are its virtues that a tablespoonful in a glass of water is usually a sufficient amount to take at one time.

One reason why Devonia is approved by physicians is that it is not a drastic cathartic.

It is to be had at almost every drug store.

**SUGGESTION:** You who are suffering from Constipation, even in a chronic form, should drink Devonia. If you want to know more about it, and why Constipation is so serious, send for our booklet "Serious Trifles." It tells you what physicians say about Constipation and its serious consequences. It is free.

Take a Tablespoonful of Devonia to a Glassful of water.
